

# OKSIR is Hiring!

**Field Staff**

**Full-time, Part-time - Seasonal Positions**

**All offices: Vernon, Kelowna, Penticton & Osoyoos**

**Resumes Due Immediately**

**Starting Dates vary from Mid-March to Mid-April**

## **About Us:**

We are an environmentally-friendly control Program for one of the biggest pests of apple and pear trees—the codling moth. Since the Program started more than 20 years ago, the amount of pesticides used in the valley against codling moth has dropped by 96%. Our Program breeds and sterilizes codling moths at our state-of-the-art facility in Osoyoos, and we release them into orchards where they mate with wild moths to prevent the population from reproducing. Our Program also provides trapping and monitoring, education, and enforcement services for the growers.

We require many seasonal employees throughout the valley to help us deliver our services. Our Program offers a chance to make a difference for our farmers and our environment.

Field Staff work outside in orchards and urban areas. Seasonal positions are perfect for people who want the flexibility to make some money while enjoying the region's summer offerings before they start winter work, go back to school or head south for warmer climates.

## **About You:**

You are physically fit, and prefer to work outside. You have an eye for detail, can follow instructions, work independently or be part of a team. You would take pride in 'parenting' a few million high-quality moths that will make a big difference for our local apple crops, and our environment.

## **Current Position Available:**

### **Field Staff – Full or Part-time available (all Seasonal)**

All are outside positions.

5 days on and 2 days off.

Hours of work are from 8:00 to 4:00 – 7 ½ hours/day, with ½ hour unpaid lunch.

Wages \$12/hour.

If this sounds like a good fit for you, please submit your resume to [sirinfo@oksir.org](mailto:sirinfo@oksir.org).
