

# **OKSIR is Hiring!**

**Rearing Facility Technician  
Full-time, Seasonal  
Osoyoos, BC**

**Afternoon Shift  
Resumes Due Immediately  
Hourly Wage: \$16.00**

## **About Us:**

We are an environmentally-friendly control Program for one of the biggest pests of apple and pear trees—the codling moth. Since the Program started more than 20 years ago, the amount of pesticides used in the valley against codling moth has dropped by 96%. Our Program breeds and sterilizes codling moths at our state-of-the-art facility in Osoyoos, and we release them into orchards where they mate with wild moths to prevent the population from reproducing. Our Program also provides trapping and monitoring, education, and enforcement services for the growers.

We require many seasonal employees to help us deliver our services each summer. Our Program offers a chance to make a difference for our farmers and our environment. Our seasonal positions at our facility start soon and run through the end of August.

## **About You:**

You are active and like to work with your hands. You have an eye for detail, follow instructions to the letter, and you keep your work area very clean. You would take pride in ‘parenting’ a few million high-quality moths that will make a big difference this summer—for our farmers, our local apple crops, and our environment. You like working as part of a team that functions like a well-oiled machine, and your former co-workers would call you “a pleasure to work with.” Previous experience with pressure washers, commercial dishwashers, and industrial cleaning would be an asset.

## **About the Position:**

Working in our state-of-the-art facility in Osoyoos, you will help breed and raise high-quality sterile codling moths. Full-time positions (Afternoon Shift), \$16.00/hr to start, with paid lunch break. Start date: March 2019.

If this sounds like a good fit for you, please submit your resume to [jobs@oksir.org](mailto:jobs@oksir.org).

For more information on these positions or our program, please check our website: [www.oksir.org](http://www.oksir.org), or call 1-800-363-6684.
