

OKSIR is Hiring!

Facility Production Labourers

Status: Full-time/Seasonal

Term: Early Spring to End of August

Location: Osoyoos, BC

What we offer: Competitive compensation, paid lunch breaks, consistent schedules, positive team environment, and interesting work!

About Us:

We are an environmentally friendly sterile insect release program for one of the biggest pests of apple and pear trees-the codling moth. Our Program breeds and sterilizes codling moths at our state-of-the-art facility in Osoyoos, and we release them into orchards where they mate with wild moths and prevent the population from reproducing. Our seasonal positions are perfect for people who want the flexibility to make some money while enjoying the region's summer offerings before they start winter work, go back to school, or head south for warmer climates.

The Position:

We are currently seeking hardworking, motivated individuals to join the team at our facility in Osoyoos BC. As a Facility Production Labourer, you will play an important part in producing a few million high quality moths that will make a big difference this summer for our farmers, our local apple crops, and our environment.

Basic Duties:

- Prepare and dispense diet
- Egg sheet preparation and processing
- Moth collection and irradiation
- Cleaning and related duties

If you live in the Osoyoos area and are looking to work with a great team and make a positive difference in the environment this summer, then we want to hear from you!

To apply, please submit a resume along with two references to jobs@oksir.org.

For more information on this position or our program, please check our website: www.oksir.org or call 1-800-363-6684.
